Bulk gas flushing machine with vacuum Jaw

**Features**

- Clean in place back flush system for internal cleaning
- Vacuum Jaw holds bag in place
- Stainless steel construction
- Low pressure Jaw closer for operation safety
- Adjustable head height

**EUROCAP 1400 BS**

Bulk gas flushing machine with bag stretcher

**Features**

- Clean in place back flush system for internal cleaning
- Bag stretcher holds bag in place to ensure consistent seals
- Stainless steel construction
- Low pressure Jaw closer for operation safety
- Adjustable head height

**Model**

Eurocap 140 VJ

**Bag Width**

200 - 1200mm

**Bag Length**

200 - 1000mm

**Max Fill Weight**

30 Kg

**Bag Closure**

Heat & Pressure

**Power Supply**

4.0 KW

**Max Speed**

4 Bags / Min

**Weight**

400 Kg

**Dimensions**

1800 x 1800 x 1100

**Model**

Eurocap 140 BS

**Bag Width**

200 - 1200mm

**Bag Length**

200 - 1000mm

**Max Fill Weight**

30 Kg

**Bag Closure**

Heat & Pressure

**Power Supply**

4.0 KW

**Max Speed**

4 Bags / Min

**Weight**

400 Kg

**Dimensions**
